

Australian Medical Acupuncture College – Qld Branch

Medical Acupuncture – An Introductory Course

Been thinking about learning acupuncture? Here's your opportunity

- Beginner's course, (or use it as a revision/refresher)
- Suitable for all medical practitioners.
- Course Includes:
 - 2 weekend workshops
 - Ongoing mentorship, clinical attachments and assessments.
- Can be used to prepare for FAMAC Part 1 Examination and to gain access to higher Medicare rebate for acupuncture.

Workshops:

First weekend:	24 – 25 September 2005
Second weekend:	22 – 23 October 2005

(Workshops involve full day on both Saturday and Sunday. Attendance at both weekends is essential.)

To be held at:

Novotel Hotel, 200 Creek Street, Brisbane
--

Course will cover topic such as:

- **Acupuncture meridians and points**
 - regular meridians
 - extraordinary meridians and microsystems
 - extraordinary points
- **Scientific aspects of acupuncture**
 - neurophysiology of needle acupuncture, laser acupuncture and electro-acupuncture
- **Principles of Traditional Chinese Medicine in Acupuncture**
- **Practical Aspects of Medical Acupuncture**
 - precautions, contraindications and complications
 - modalities of acupuncture treatments
 - treatment regimes
